shipping
included!

Richard Milhous Nixon lived much of his life in public service and in the public eye. Perhaps because he inhabited our country's political landscape for so many years—as a congressman, senator, vice president, and ultimately the President of the United States—we as a nation felt we knew the man.

But there is much more to Richard Nixon than the person we saw on our TV screens.

In the book, *The Nixons: A Family Portrait*, readers are invited to go beyond the superficial depiction of the 37th President to discover the heart and soul of one of our nation's most influential leaders. Through a narrative that explores the history of the Nixon and Milhous clans—from their immigrant ancestors to their more immediate family—author Edward Nixon, Richard's youngest brother, reveals the heritage that molded Richard Nixon, the person: son, brother, husband, father, friend. Full of personal insight into historical events and prominent people of the 20th century, *The Nixons: A Family Portrait* introduces us to a thoughtful, intelligent, principled man who cared deeply about family and country, and whom we can be proud to call an American.

Please send me _____ autographed copy(ies) of *The Nixons* @ \$27.95 each plus \$6.50 shipping and handling. \$3.00 for each additional autographed copy.
